# Introducing RMHWireless

A SMART ENTRY LOCK FOR YOUR HOME

RMHWireless
By ROCKY MOUNTAIN HARDWARE

Now, you can combine any of Rocky Mountain Hardware's bronze door hardware with a state-of-the-art smartphone-operated mortise lock. The battery-powered Bluetooth mortise lock features keyless entry via Bluetooth/Wifi communication and is controlled by our RMHWireless proprietary app for ease and convenience. As with all Rocky Mountain Hardware, this offering is customizable to complement any aesthetic, including choice of hardware collection all with no exposed electronics.

KEY PRODUCT ATTRIBUTES:

• All technology components hidden inside the mortise pocket.

• Fully customizable—select any hardware collection including choice of lever, knob or grip in a choice of 12 finish options

• Does not require any wiring through the door frame, battery powered for easy installation. (Hardwiring is optional.)

• Lock/unlock the door and grant keyless entry via RMHWireless app.

• Compatible with many common smart home systems, such as Google Home, Alexa and Nest.

• Compatible with both iOS and Android platforms.

• Up to 50 users allowed per lock—each with optional and customizable accessibility permissions.

• Each lock activated after creating a RMHWireless account, requiring a one-time setup fee and an annual subscription fee.
